To Whom It May Concern:

Although I am an attorney, I have personally designed and had built several commercial and residential buildings. My former projects were more like teeth pulling, every moment excruciating.

It is with great pleasure that I write this letter of unconditional recommendation for Platinum Constructions. I have had the pleasure of working with Platinum Construction on my new vacation home which is located on Gun Lake, Michigan. I invite you to view my home as it will exceed your expectations as to fit and finish. My primary home is a large custom built lake home which I spared no expense and took several years to complete. I only wish my primary home had the same level or quality details as my new one.

I was very pleased with the level of organization, professionalism, care and follow-up that Platinum Construction demonstrated in completing our project. From the first construction meeting through the final close-outs, our project was well planned and executed. As any issues arose, they worked on finding alternate cost effective solution on a timely basis. They faced scheduling issues head-on and completed construction on time, on budget and to the highest level of quality.

Over the past months of observing Platinum Construction, I feel that their company distinguishes themselves on value construction, integrity, and advanced management over their subcontractors. They worked through issues with their subcontractors very well, keeping focus on completing the job correctly the first time, and to the highest level of construction standards. Our site superintendent, Jeremiah Boerman, was a pleasure to work with, managed our project and the subcontractors very effectively. He is ambitious to accomplish any task that is set before him, keeping a close eye on budget as well as quality workmanship.

To say, I strongly recommend Platinum Construction to you without reservation is an understatement. I feel it would be to your advantage as a prospective new home owner to use Platinum. If you have further questions, please do not hesitate to call.

Regards,

Robert A. Carr
